SPLENDID SPIRIT DISPLAYED BY AMERICAN TROOPS

Green Troopers and Seasoned Officers Show Enthusiasm For Service.

American Training Camp in France, July 21.—“Whenever you write home, whether in a private letter or to any newspaper, tell them we are doing finely, and that no army ever had a finer spirit or was more confident of winning.”

I have handled troops for a good many years, and under varied conditions, but never had a finer set of men, never a more enthusiastic lot than now. It has been a revelation to me to see the splendid spirit that has prevailed since we landed, and it augers well for the part America is to play in the war that her initial troops take hold with a vim that is going to prove irresistible.”

The first quotation is from a comparatively green trooper, the second from a seasoned officer. Both were made independently to the Associated Press within a few moments of each other yesterday.

Both illustrate the wonderful esprit de corps prevailing throughout the first American contingent—an esprit de corps which has evoked the enthusiastic approval of the French. The American soldiers, as one argues with them, do not appear to underestimate in the slightest the seriousness and earnestness of the task before them, but from the newest rookie to the oldest sergeant they are going through their daily drill, performing their daily work with dash, vim and cheerfulness and willingness that has come as genuine to the correspondent who spent the first two years of the war on the German side, and with ample opportunities to witness the perfunctory qualities of the German spirit.

Thus far there has not been one single soldier who undertakes to underestimate his opponent, but likewise no one has made his appearance who is not supremely hopeful and confident in the final outcome. The fine spirit prevailing is evident on every side. The discipline is excellent, and there is an absolute lack of complaint. The troops are taking their training with cheerfulness and are adapting themselves to the novelty of billeting and living under unprecedented conditions necessarily imposed by living in a stranger's house.

The troops are engaged in work almost entirely strange to them, yet the officers say they have made entirely unexpected progress, which not only is a good augury for the balance of the army, but is due largely to the enthusiasm pervading each company and regiment.

TWO AMERICANS SHOT

Attempted To Kill Kaiser, Says Report.

London, July 20.—The Reuter Amsterdam correspondent sends the following:

According to information available here, which must, however, be treated with necessary reserve, two Americans were shot recently on the charge of having attempted to take the German emperor's life.

WHAT NATIONAL PROHIBITION MEANS

From the noise that is made about it among the wets, one might think prohibition meant murder.

It doesn't.

It simply means more food, and that means lower food prices.

It means more efficient labor, and that means greater output, and that means lower prices again.

It means that the men who are now making beer and whisky will begin to make the equivalent of what they consume, and that, again, means more car space for legitimate commodities, and that means faster handling of freight, and that means lower prices.

It means more ship tonnage to be used in transporting material for our boys in France and for our allies, and that means not only lower prices for our allies, but the lives of American boys saved for America.

Incidentally, it means less crime, and that means less taxes. It means less pauperism, and that means less taxes. It means less insanity, and that means less disease and death. And THAT means infinite myriads of things for the good old U. S. A!

TOMPKINS ADMITS GUILT, SAY POLICE

“I Killed Those Three People” Jailer Declares He Told Wife and Father.

Johnstown, Pa., July 20.—George C. Tompkins, of Philadelphia, held in connection with the shooting to death of Edmund I. Humphries, prominent coal operator; his wife, Mrs. Carrie Humphries, and their 15-year-old son, Edmund I. Humphries, Jr., on a country road near Carrolltown, this county, last Sunday, confessed to the three murders today, according to an announcement by the police. The confession was made in the presence of Jailer Edward Knee, of the county jail, and Tompkins' attorney.

According to Jailer Knee, Tompkins was sitting in the office of the jail talking to his wife and his father, George C. Tompkins, Sr., of Clifton, New Jersey, when he burst forth, saying:

“I killed those three people. I killed them all. I killed Humphries in the corn. I bought the pistol in Johnstown.”

Mrs. Tompkins began to cry and became hysterical and her husband said no more. Later, it is said, he made a detailed verbal confession to the Rev. B. F. Henry, pastor of the Ebensburg Presbyterian church, but this confession was not made public.

JOHNSON'S SUGGESTION ADOPTED BY PRESIDENT

No City of Washington—Proclamations Will Be Dated “In City of Washington.”

Says the Washington Star: There is no city of Washington on the map. There has been no city of Washington since February 21, 1871. Representative Ben Johnson of the committee on affairs of the District of Columbia says so. The President concurs.

For the first time in history a proclamation by the President is dated “in the District of Columbia,” and not “Washington, D. C.” It is significant. Probably every other proclamation issued by the President will bear the same date.

It is to be assumed that Representative Johnson's views prevailed. He says, in a letter to the President:

“For some years now I have noticed that the President, in issuing proclamations and commissions, says: ‘Done at the city of Washington, D. C.’”

“Since February 21, 1871, there has been no ‘City of Washington.’

Charter Repealed In 1871.

On that date Congress repealed the charter of Washington, Georgetown and the ‘levy court’ and created instead the one municipality of the District of Columbia.

Therefore I suggest that the proclamation should state: ‘Done in the District of Columbia,’ and not in the ‘city of Washington,’ as there is no city of Washington.”

The President, in his proclamation of July 14 putting German insurance concerns out of business in the United States, “done” it in the District of Columbia.

By order of the President this form will be followed for commissions, as well as proclamations, after the present supply of blank forms has been exhausted. So there is no city of Washington hereafter.

FREAKISH EGG.

L. B. Bennett brought to The Herald office Saturday an egg that borders on the freak, though it is only one of a cycle that had been laid by a hen of Mrs. R. P. Bennett, of Route 3.

The egg is perfectly shaped in every respect, but the shell is crumpled, resembling very much an egg of the soft shell variety that had swiveled. The hen that produces these odd-looking eggs has laid out one cycle and has started on the second. None of these eggs have been set by Mrs. Bennett, and it is not known whether or not they will hatch.

LIGHTNING FREAK.

During one of the storms the past week lightning struck Milam field of tobacco near Fairview. Sixty hills were completely destroyed.—[Todd County Times.]

500 SHOTS FIRED; TWO MEXICANS KILLED

American Border Patrol Drives Off Bandits After An Engagement.

Mission, Tex., July 20.—Approximately five hundred shots were exchanged across the Rio Grande today at Ojo de Agua, eight miles southwest of Mission, between a small American border patrol and a number of unidentified Mexicans. There were no American casualties, but latest reports say two or three Mexicans were seen to fall during the engagement which started at 11 o'clock this morning and ceased at 5 o'clock when the Mexicans withdrew.

The Americans were under command of Corporal Kent and the fighting started when several shots were fired from the Mexican side. The outpost at Ojo de Agua, hearing the Americans returning the shots, immediately sent reinforcements under Sergeant J. C. Henderson.

HOLLWEG PRAISED BY HIS SUCCESSOR

German Chancellor in an Address Says U-Boats Invoked To Shorten War.

Copenhagen, July 20.—Dr. Michaelis the new imperial German Chancellor, in his address to the Reichstag Thursday afternoon declared his adhesion to Germany's submarine campaign, asserting it to be a lawful measure, justifiably adopted and adapted for shortening the war.

Dr. Michaelis opened his Reichstag speech with a hearty tribute to Dr. von Bethmann Hollweg, the retiring imperial Chancellor, whose work he said, history would approve.

The Chancellor declared that the war was forced upon unwilling Germany by the Russian mobilization and that the submarine war was also forced upon Germany by Great Britain's illegal blockade and starvation war.

The faint hope that America, a the head of the neutrals, would check Great Britain's illegality was vain. Germany's final attempt to avoid the extremity by a peace offer failed and the submarine campaign was adopted, said the Chancellor.

The submarines, the speaker continued, had done all and more than had been expected and the false prophets who had predicted the end of the war at a definite time had done a disservice to the Fatherland.

IS YOUR BOY GOING?

A writer in the August Woman's Home Companion says:

“Close to me lives a man whose interests have been separated from mine by more than a mere ivy-grown stone fence—to be exact, by several hundred thousand dollars. The other day he leaned over the fence and inquired:

‘Your boy going?’

‘Yes.’

"TIME KILLERS."

Under the caption, "Helping Germany; Stabbing Our Own Soldiers," the Memphis Commercial Appeal proceeds to show just how much valuable time is consumed in the two Houses of Congress in useless speeches by members of these bodies, and says that they find more to do about nothing than any two organizations ever gotten together.

On page 5578 of the Record, under date of July 14, the following appears from the Senate proceedings:

Mr. Stone: "Mr. President, what I have to say, I have no thought of saying anything that will especially contribute to the pleasure, still less to the enlightenment of the Senate, but what I have to say I wish to say because I desire on my own account to have it constitute a part of the Record."

And, as the Missouri Senator proceeded to announce beforehand, he didn't say a thing that "would contribute to the pleasure and enlightenment of his colleagues," but launched a bitter attack that occupied two full pages of the Record, on the war policy of the President and the war policy of the Nation, criticizing every act the Nation is doing or contemplating doing toward bringing the war to a successful termination.

The Appeal goes on to say that "everytime a member of the lower house attempts such delay as that of the 14th when an attempt was made to postpone the aviation bill, and succeeds in securing the delay, he will be indirectly responsible for the killing of thousands of American soldiers."

And such fellows as Senator Stone go to Washington as representatives of the people (and best interests of the people) and this is the way they are represented. The people should retire all such "time killers."

The surrender of the steel trust and the announcement that the product will be delivered at a fair price to be fixed by the Government illustrates what can be accomplished by a Chief Executive in whom the people have confidence—one who means just what he says. President Wilson saved the taxpayers hundreds of millions of dollars by his powerful statement to these gigantic corporations that patriotism and blood money profits must be kept separated, and that no game of extortion would be tolerated. When he said:

"Patriotism leaves profits out of the question. In these days of our supreme trial, when we are sending hundreds of thousands of our young men across the seas to serve a great cause, no true man who stays behind to work for them and sustain them by his labor will ask himself what he is personally going to make out of that labor. No true patriot will permit himself to take toll of their heroism in money or seek to grow rich by the shedding of their blood. He will give as freely and with an unstinted self-sacrifice as they. When they are giving their lives will he not give at least his money?" The "Big Wigs" knew he meant it and every citizen of the United States owes a debt of gratitude to the President.

When is a soldier not a soldier? That's the question that bothered two Louisville attorneys and Judge Haswell last week, when a saloonkeeper was arrested for selling whisky, it was claimed, to a soldier. The attorneys contended that the young man only had on a regulation hat, shirt and shoes, and that he was not a soldier, from a uniform standpoint. Judge Haswell took the matter under advisement, and not having seen a report on the case, we let our readers render their own decision.

A Louisville man has been fined \$10 for maintaining a nuisance in the shape of a barking dog. There would be quite a few dollars dumped into the city treasury if Hartfords should the owner of every barking dog in the city be fined a like amount.

Memphis woman, after being told of the suicide of a patient of a institution of which she was confined, wished it had been her, and a

few hours later tied a towel around her neck then to the bed and died of strangulation. That's one way of getting one's wish fulfilled.

Revenue officers captured a whole boat load of booze a few miles below Memphis, from a man by the name of Laughter. The boat was one of a booze fleet that had been operating in and around the Tennessee city for some time. This will evidently end Laughter's disposition of "laughing water."

Chancellor Michaelis, of the German Reichstag, declares that Germany is ready to conclude war on the basis that the teutons are victorious. Kind to be sure, of Bro. Michaelis, but we don't think the allies are ready just yet to holler "calf rope."

"Stanley Urges Bone Dry Amendment Be Submitted." (Headline—Courier-Journal.) Wonder if the Louisville friends have ever taken down those large pre-primary signs: "A vote for Stanley is a vote against State-wide prohibition?"

We thought that Mexico had been good about as long as she could. So we were not surprised when news dispatches announced a clash between American and Mexican troops near Mission, Texas, (on the border) last week.

Let's all go to McLean county to live. Evidently it is the best county in the State, for the grand jury has just completed its labors there without having returned a single indictment.

A Pennsylvania youth was identified as being connected with a series of robberies in Philadelphia by his red hair. Such is the penalty for having auburn locks.

Seems that Germany has a bad case of stomachache, if news dispatches to the effect that she is having internal trouble, are true.

Fine rains, glorious sunshine and the best prospects for the largest crops ever—what more can we ask?

TO THE CITIZENS OF OHIO COUNTY

I notice that our County Fair has been set for Sep. 26th, to 29th, inclusive and it will not take that long to roll around, and I would like to call your attention to the necessity of making this an Agricultural Fair as much as possible. To do this you will have to get up something to exhibit, and this means that you will have to begin at once to get things in shape for exhibition.

I have had a talk with the management and they say they will gladly do all in their power towards making the premiums as attractive as possible and will show the exhibitors all the favors they can to help build up the agriculture of this County.

Ohio County is strictly an agricultural county and we should do all we can to promote agricultural interests, and one of the best ways to do this is through the County Fair. Show our people what we are doing in our county, that we are not asleep. We have some as fine hogs, cattle, sheep, goats, horses, mules, poultry and all kinds of live stock, corn, wheat, oats, rye, barley, cotton, tobacco, soy beans, alfalfa, timothy, redtop, sweet clover and vegetables as you will find anywhere, and lets get these things up in good shape and exhibit them at the fair and show our people and other people what we can do in Ohio County.

We ought to have the whole fair grounds covered with these things and make it interesting and instructive for the people when they come to the fair. Then some of our progressive merchants should get display of some of their most modern and improved farm implements of all kinds to show the people and perhaps by doing so make a good many sales they would not otherwise make.

You will notice the Fair Co., propose to put on sale each day any live stock that you may have for sale, a feature which should be of great service to you if you will only use it, to dispose of your fine stock.

I hope you will begin at once to prepare for this fair something for exhibition and bring in stock and farm products for all over the county and make this the greatest fair from an agricultural stand point we have ever had in this county. Then come to the fair and see these things and go home from it resolved that we will surpass anything in exhibits we had next year. By doing this you can build up your county faster than most any way.

County Agent.

MAMMOTH CHERRIES.

Miss Sue Irvine, of near this city, is the recipient of a crate of cherries that were grown by her brother, Sam B. Irvine, at Yokoma, Washington. These cherries were the largest and most finely flavored specimen of this class of fruit ever shown here. Dark of color, and very juicy, the pulp is firm and solid, the seed are unusually small. The fruit was uniform in color and size, each being almost an inch in diameter. Miss Irvine was gracious enough to bring her present to the Standard office, and share the luscious fruit with us. The sender of the cherries, Sam Irvine, has been in the northwest for a number of years, he is well satisfied, and has made good in the State of his adoption.—[Bardstown Standard.]

MARVIN BEAN AND MRS. MARY C. WHITE MARRY

A wedding that came as somewhat of a surprise to their many friends in Hartford was that of Mrs. Mary C. White, who was Miss Mary Cox, daughter of Capt. and Mrs. S. K. Cox, and Mr. Marvin Bean, the popular manager of the Ohio County Drug Co., which occurred in Owensboro yesterday.

Mrs. Bean had been making her home at Harrisburg, Ill., for about two years and had recently arrived in Hartford for a visit to her parents and other relatives.

Mr. and Mrs. Bean have many friends who join The Herald in wishing for them a long and happy married life.

MARRIED SOLDIER SHE HAD NEVER SEEN BEFORE

Last Sunday at the home of her father, Mr. Butler C. Rhoads, of the Taffy neighborhood, Miss Prudie Rhoads was married to Mr. Herbert Sowers, of Valley View, Ky., who is now stationed with Uncle Sam's boys at Chickamauga Park, Ga.

Miss Rhoads had never seen Mr. Sowers until he arrived to marry, their acquaintance having only been by correspondence.

A fellow soldier of Mr. Sowers gave him the name and address of Miss Rhoads some time ago and he wrote her—the correspondence culminating in the wedding Sunday.

The couple left immediately for the groom's headquarters at Chickamauga Park.

LOCAL EXEMPTION BOARD HEADQUARTERS

The headquarters of the local exemption board, which is composed of Sheriff S. O. Keown, W. C. Blankenship and Dr. E. B. Pendleton, will be in the old office of the Green River Coal Co., next to The Herald office.

Every man drawn in the first draft,

whose names appear in The Herald

today should watch the papers for

further notices relative to reporting

to the local board, and the fact that

they are not notified by mail does not

excuse them from reporting, as notices in the papers will be sufficient.

It is thought, however, that every man drawn will be notified by mail to report to his local board.

A man who fails to report for ex-

emption will be put on the eligible

list. So if your names appears in the

list of the first called, make it a point

to report to your local board.

Profit-Sharing Sale

Begins Friday, July 27th. :: Closes Monday, August 13th.

To Share in the Profits You Must Pay Cash or Produce Checks for Your Purchases.
Merchandise Charged Will be at Regular Prices.

YOU no doubt remember the big savings you made on your purchases at our last sale in January. You can call to mind our statement that there would be an advance of from 20 to 33 per cent on all Spring and Summer Merchandise. That statement holds good for the following season. Higher prices will be the first step we will be compelled to take after closing this sale. All raw materials have advanced. Cotton in January was worth sixteen cents per pound; now it's worth twenty-six cents. Wool in the grease was forty-five cents; now it's sixty-five cents. Silks, Hemp and Flax has also been raised to higher levels by the ravages of war. Every commodity is soaring to heights unknown to this day and generation.

While it looks unreasonable and unbusinesslike to offer merchandise at reduced prices, decks must be cleared for future action. The short lots and odds and ends must be in the hands of the consumer. To induce you to buy for your immediate and future needs and to show our appreciation for the liberal patronage accorded us, we have arranged this season of wonderful bargain-giving. We want to say right here, should the war close to-morrow, we can't see how it would be possible to have cheaper merchandise for eighteen months or two years. With these conditions facing you, you can't afford not to take advantage of our big selling event. Besides the merchandise drawn from our regular stocks, we have assembled thousands of yards of loom end Percals, Ginghams, Cheviots, Tickings, Drillings, Romper Cloth, Staple Checked Ginghams, Poplins and thin Wash Goods.

Carefully consider the advantages of this buying opportunity and be on hand early the first day of the big sale, and don't hesitate to lay in an abundant supply along all lines and before another season has passed you will doubly appreciate the purchases you have made.

Shall you act the part of wisdom, or shall you defer until tomorrow what you should do today?

Editor Get Peeved Over Criticisms And Then Tells Real Truth

A West Texas editor got tired of being called a "liar" because of an occasional typographical error or slight disarrangement of the facts in publishing a commonplace news item, says the Dallas Pitchfork. In his wrath, he announced in bold-face type as follows:

"A lot of people in this town fall out with the editor and brand him as a liar when the ordinary human mistakes of life show up in a newspaper. You have a little chavity and fellow feelin' for every man in town but your editor. You claim that you want the facts, and d-d if I don't give 'em to you. Read the next issue of this sheet and you'll see some facts, with the bark off. I'll admit that I have been a liar, an editorial liar, ever since I have been editing this sheet, but I have never printed a lie in these columns except to save somebody's feelings from being hurt. I'm not afraid of any of you and I'll be dad blamed if I don't print the plain truth from now on, or until you get out of the habit of calling me a liar every time I make some little unavoidable typographical error. Watch my smoke."

Here are some paragraphs, culled from the next issue:

John Bennin, the laziest merchant in town, made a trip to Belleville yesterday.

John Coyle, our grocer, who voted with the Republicans in 1896, and consumes more mail-order whisky than any other member of the Baptist church in this county, is doing a poor business. His store is dirty and dusty. It is a wonder he has any business at all.

Rev. Sty preached last Sunday night at the Christian church. His sermon was punk and uninteresting except some stuff he quoted from Bob Ingersoll, for which he failed to give Bob any credit. He also recited a few passages from one of William Elbert Munsey's sermons and had gall to palm it off as his own.

Dave Chartier died at his home

HOW TO LIVE AND SAVE.

"How can I live comfortably and save?" recently asked a woman of another.

Her companion gave her a look of pity and advised: "Live like your mother lived and look after your household yourself."

It may be rightfully suggested that times are different from what they were when our grandmothers queened it over the household. Prices are higher. The cost of living has advanced heavenward.

At the same time the principles of thrift are the same today that they were years ago.

A French chef, visiting this country to look into the catering interests with a view of gaining ideas, returned home to instruct his fellow countrymen. He incidentally made the published statement that the average American family threw into the garbage can enough food from a single meal to provide a French family with food for a week.

This may sound a bit extravagant, but when one stops to think that in Germany and France the word waste is unknown in the kitchen it is plausible enough.

Because plates are removed containing pieces of meat that were not used is no reason that there is anything wrong with the meat.

In the French kitchen and in the kitchen of the Germans all of the left-over stuff from dinner is preserved and is served again so cleverly disguised that it is welcomed at the table.

We cut a loaf of bread, serve it, and all that is not used is wasted.

We throw away scraps of meat that can be used in hundreds of ways. We are extravagant in many ways, but we are absolutely without any sense of saving when it comes to our stomachs.

Now that Food Commissioner Hoover has inaugurated his crusade of food economy our women must master the principle of thrift.

It will be their duty to conduct a warfare at home, a helpful and necessary warfare against waste in order that our men at the front who are fighting for our flag and for our honor, may be properly fed. It was the great Napoleon who declared that "no army of men can fight on empty bellies." [Commercial Appeal.]

TO BE ENCOURAGED.

Miss Gotro—Nearly all my admirers think I should be able to get tips from you on the market.

Gotro—Encourage them in the idea, my dear. It won't be long before I'll be ready to unload the stock I'm carrying. [Boston Transcript.]

THE REAL THING.

"You claim to be a food expert?" "I do," replied Farmer Corntassel.

two miles north of this place, last Thursday night. Dock Holderness, who is an old friend of the family, attended him a few minutes before he expired. He gave it out that Dave died of heart failure. That is a lie. Dave died from drinking too much of a very poor grade of mail-order liquor. This paper prints the truth.

Tom Spradin married Miss Cordie Meador last trades' day at the county seat. It ain't generally known, but the marriage was brought about mainly by a Remington shotgun manipulated by the bride's father, Tom concludin' that marrin' was the healthiest thing he could do until other arrangements could be made.

Roger Lloyd, cashier of the State bank at Willow Grove, died Wednesday evening and was buried Friday by the Odd Fellows in Pleasant Mound cemetery. He has been taking this paper seven years and so far hasn't paid us a cent; we thinking that he, being a banker, would pay some time. We will sell the account for two bits' worth of fresh greens.

Married: Miss Susie Scruggs and Horace Guffin, last Saturday, at the Methodist parsonage. Rev. James C. Williams officiating. The bride is a very ordinary town girl who flirts with all the traveling men she meets and never helped her mother three days all put together in her whole life. She is anything but a beauty, resembling a gravel pit in the face, and walks like a duck. The groom is a natural-born loafer and bum. He never did a lick of work until his stepdaddy run him off from home last fall. He went to the county seat, and just before starving to death, accepted a job as chambermaid in a livery stable. As soon as his ma found out where he was, she went and got him and brought him home. He now resides at the home of his wife's father and says that he has no definite plans for the future. Susie will have a hard row to hoe.

"I'm the kind of a food expert that can raise the stuff instead of talkin' about it." [Washington Star.]

Dr. Frederic Jacobson says, 75% of Women Need Phosphates to Give Them Strong, Healthy, Rounded Figure and to avoid Nervous Breakdown. Thousands of Women Grow Strong in Nature's Way. Consider the Lilies of the Field, How They Grow."

The life of the lily is but a few weeks or months. The life of man is "three score years and ten." But to live one's life in its fullness, women like the lily, must be nourished by those same vital elements which nature provides for nourishing every living thing; and these include the valuable phosphate so often lacking in the usual food we eat today. Argo-Phosphate is rich in these wonderful elements. It contains them in concentrated tablet form which is easy to take and quickly assimilated and absorbed into the system, and from you to old age, builds and rebuilds body and brain in beautiful harmony with Nature's perfect plan. "That's why" Argo-Phosphate makes good solid flesh and muscles.

SPECIAL NOTICE: Argo-Phosphate contains the Natural phosphates which thousands of physicians are prescribing daily to build up thin pale, colorless women to give them rosy cheeks, red lips, and a beautiful complexion. Many cases have been reported where women have increased their weight from 15 to 25 pounds with a few weeks treatment, and any woman who desires a well rounded and developed form, should secure from her druggist, this new drug which is inexpensive and is dispensed by any reliable druggist with or without a doctor's prescription. If your druggist will not supply you, send \$1.00 to the Argo Laboratories, 10 Forsyth St., Atlanta, Ga., and they will send you a two weeks treatment by return mail.

HOW TO CAN TOMATOES.

Select firm, well-formed tomatoes. Scald one and one-half minutes, or until skin loosens. Dip quickly into and out of cold water. Peel and remove stems and cores. Pack directly into cans or hot jars. Press down with a table spoon (add no water). Add a level teaspoonful of salt per quart. Put the rubber rings and caps on jars into position but do not tighten fully. Seal tin cans completely. Place the packed containers on a false bottom in a vessel of water sufficiently deep to cover them by one inch and allow to remain at a boiling temperature for twenty-two minutes when using hot water bath canners.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

Miss Pearl Brown then read a splendid paper on how to secure better attendance.

How to beautify house and grounds was most ably discussed by Miss Irene Ward and Mrs. Irene Duff.

Mr. W. W. Browder, the Ohio County Farm Demonstrator, addressed the institute, giving a very instructive and entertaining discussion on how the teachers of Ohio county can render the best service to farmers.

Talk by Instructor, Prof. Craig, concerning the duties of the County Board. An address given on the same subject by Supt. Shultz in regard to increasing the attendance. The Superintendent thinks it worth while to offer a reward.

Distribution of our American flag by Supt. Shultz to each rural teacher who showed their appreciation and patriotism by standing and singing America.

School fairs, discussed by Prof. F. T. Shultz. He gave one of the great objects of the school fair is to encourage boys and girls and gives to them a lesson in skill.

The relation of good roads to good schools, discussed by Rev. M. A. Embry. He thinks it well to give a day to this work and have a gathering of the patrons.

Should a trustee solicit the office and should he attend institute and teachers' meetings? Mr. O. O. Williams says one of the important factors in a school is the trustee. He thinks the patrons should be very careful in the selection of their trustees; also thinks it the duty of all trustees to attend teachers' meetings and institutes. Further discussed by Mr. W. S. Hill.

Miss Maude Shultz read a splendid paper on the relations of the common school to the graded schools.

Miss Hattie Weller gives to us some good methods of ventilation and sanitation.

Boys corn and girls canning clubs. Miss Marissa Foster suggests that girls have corn clubs as well as boys.

After recess the teachers were entertained in a way by the good people of Hartford, that was most enjoyable and highly appreciated by all. The secretary, I am sure, expresses the sentiment of all the teachers in saying that the week spent in Hartford is looked forward to with a great deal of pleasure. We receive such a hearty welcome we feel perfectly at home.

Thursday Evening.

Common school diplomas were presented to eighty-nine boys and girls of Ohio county by Supt. Shultz. In the presentation Supt. Shultz gave the graduates some excellent advice and encouragement. Addresses were made by Profs. W. J. Craig and F. T. Shultz.

Entertaining solos were rendered by little Miss Katherine Williams, Misses Kathleen Turner and Mary Laura Pendleton.

FRIDAY.

Institute called to order by Supt. Shultz.

Devotional exercises were conducted by Rev. Birch Shields.

Rev. Allen gave a most interesting address on "A Great Undertaking." He says the efficiency of a teacher necessary for the development of the mind of the child, also some of the factors needed in teaching, are cheerfulness, self-control and sympathy.

RESOLUTIONS.

We, the committee on resolutions beg leave to offer the following:

1. That we extend to the good people of Hartford our most grateful appreciation for their hospitality and many courtesies which have been shown the Ohio county teachers and also to the trustees of Hartford College for the use of their hall.

2. That we wish to express our thanks to the citizens who so generously served us with refreshments Thursday afternoon.

3. We extend to the County Board and the trustees of the county our gratitude for the hearty cooperation during the past session of school.

4. That we endorse the way in

which our worthy Superintendent Mr. Ozna Shultz has conducted the institute and for the splendid service he has rendered us during the past three years.

5. That we express our sincere appreciation to our never tiring instructor, Prof. W. J. Craig, for the excellent manner in which he has conducted the institute and the interesting and instructive addresses he has given us.

6. That one of the most pleasing features of the week was the inspiring address of Dr. W. A. Ganfield, Wednesday evening.

7. That we approve the school fair movement, also the moonlight school.

8. That we, as teachers, will put forth every effort to instill patriotism to the minds and hearts of our pupils.

9. That in as much as the county is large and the school interests are growing rapidly the schools of the county need a more adequate supervision than it is possible for the County Superintendent alone to give. We hereby endorse the assistance that the County Board has seen fit to give and recommend that at an early date the board will employ a well qualified office assistant, thereby giving the County Superintendent an opportunity to spend the greater part of his or her time with the teachers while at their work. Be it further

Resolved, that the teachers of Ohio County Institute co-operate with the trustees of the sub-division in regard to the compulsory school law and asks the hearty co-operation of the Ohio County Board of Education.

11. That it is the sense of the Teachers' Institute of Ohio county that the efficiency of the school work of the county would be greatly enhanced if all the rural schools should begin on the same day. And the trustees of each sub-division are hereby requested to take this matter up for discussion together with the teachers of that division and finally fix a day for the beginning in that division.

ONCE UPON A TIME—
WITH A MORAL

"Once upon a time, a man who was too economical to take a paper, sent his little boy to borrow the copy taken by his neighbor. In his haste, the boy ran over a four-dollar stand of bees, and in ten minutes looked like a watery summer squash. His cries reached his father, who ran to his assistance, and, failing to see a barb-fire fence, ran into it, breaking his anatomy and ruining a five-dollar pair of pants. The old cow took advantage of the gap in the fence, got into the cornfield and killed herself eating green corn. Hearing the racket, his wife ran, upsetting a four-gallon churn full of rich cream into a basket of kittens, drowning the whole 'flock.' In her hurry she dropped a seventeen dollar set of teeth. The baby, left alone, crawled through the spilled milk into the parlor and ruined a twenty-dollar carpet. During the excitement, the oldest daughter ran away with the hired man, the calves got out and the dog broke up eleven setting hens. Moral—Subscribe for our paper."—[Ex.]
